

KARTIK CHINKERE

Java Full Stack Developer

+971 507906062 | +91 8147335213 | kartikchinkere@gmail.com | [LinkedIn](#) | Dubai, United Arab Emirates

SUMMARY

Experienced Java Full Stack Developer with 7 years of experience in front-end and back-end development. Proficient in designing, developing, and deploying web applications using Java, Spring Boot, and related back-end technologies, as well as modern front-end frameworks like Angular for creating responsive and dynamic user interfaces. Skilled in RESTful APIs, Microservices architecture, and SQL/NoSQL databases. Strong collaborative skills with a track record of delivering high-quality, scalable solutions. Dedicated to continuous learning and staying updated with industry trends and best practices in full-stack development.

KEY ACHIEVEMENTS

- User Engagement Boost — Boosted user engagement by 30% through optimized front-end components.
- Efficiency Enhancement — Reduced application response time by 40%, improving overall efficiency.

SKILLS

Backend Development: Java, Spring, Spring Boot, SQL, Spring MVC, MySQL, MongoDB, Redis, Microservices, Caching, AWS, AWS API Gateway, AWS S3, AWS Cognito, Keycloak, OAuth2, Solr, Jira, BitBucket, Git

Front End Development: Angular, AngularJS, JavaScript, HTML, CSS, LESS

EXPERIENCE

Java Full Stack Developer

HiDubai

01/2023 - Present

Dubai, United Arab Emirates

HiDubai.com is a business discovery platform that allows you to discover new places and companies across Dubai.

- Developed scalable and robust Java-based web applications, enhancing user experience by 20%.
- Collaborated effectively with cross-functional teams to meet project objectives.
- Teamed up with different personnel to gather application requirements and revise specifications.

Analyst

Deloitte US India

05/2021 - 12/2022

Bengaluru, India

Deloitte's Cognitive Functional Test Automation (CoFTA) tool leverages AI to create and execute automated test scripts. Designed for low cost, low complexity, and agility, Deloitte's AI and ML test automation solutions can operate independently or integrate seamlessly with clients' ecosystems.

- Resolved client issues, reducing downtime by 15% through effective troubleshooting.
- Adapted quickly to changing client requirements while maintaining quality output.
- Worked with product owners to refine and prioritize feature backlogs.

Software Engineer

Zycus Infotech

2019 - 05/2021

Bengaluru, India

Zycus is the leader in Source-to-Pay (S2P) solutions, pioneering the world's first Generative AI (GenAI) powered platform that helps procurement achieve 10X speed and efficiency.

- Enhanced processing speed by 25% through application performance optimization.
- Adapted to various languages and technologies based on project requirements.
- Improved system performance to enhance user experience through code optimization.
- Conducted regular updates of existing systems to promote optimum performance levels.

EDUCATION

Information Science and Engineering
University Visvesvaraya College of Engineering (UVCE)

2015 - 2019
Bengaluru, India
